CITY LICENSE FOR MOTOR CARS?

CITY LICENSE FOR MOTOR CABS?
The city, it is suggrested, may impore a license fee on automobiles. This power was granted the city a year ago, but has not been extereised in view of the license fees already imposed by the Provincial Government. These are heavy, to the point of being excessive, and if there were added a civile license the man who uses his car only in summer and then sparingly, would have cause to feel that he was being penalized unreasonably. A fairer way to get the revenue for the city would be to impose an aditional fast of a cert a gallon ori gasoline. Then a driver would pay in proportion as he wears out the pawments. And the tourist and out of town motorist also would contribute something to the exest of maintaining the streets. The city is undoubtedly entitled to renot as plentiful in this locality is called in some way or other from moter traffic.

BYSTANDERS AND SPOILS

section of Asia Minor if Britam should go to war, with the Turks. Greece also has a seroe or the wind to wipe off with the Moslem, and may take the cappartunity to balance the accountly selsing the Turkish territory in Thrace. In fact there is prospect, that a general game of grah in the Balkans peet that a general game of grah in the Balkans and Asia Minor might follow, if Britain understook to keep the Turks too busy to protect their took to keep the Turks too busy to protect their took of the protection of t

peet hat a general game of grah in the Bulkans and Asia Minor might follow. (I Britain under took to keep the Turks too busy to protect their property.

Admitting that aimsed any sort of division of Turkisk territory among almost any group of nations would be a blessing to the finhabitants thereof, Turkis included, it hardly seems a fair arrangement that Britain should do the fighting and others carry off the speids (If flafy and the sunt to enlarge their territory at the expense of the Turk, they should take a hand in the fighting. The League of Nations having left it to Britain to, regulate the Turks, should intimate to other powers that if they hope to get anything out the with Britain.

WHY THE TRANSA-ATIANTIC "SUBSTI-

WHY THE TRANS-ATLANTIC "SUBSTITUTES"?

Officials at Ottawa are said to be clated because Outside the Common Contains is importing less authreactife rough the United States than in former years. The Briskews and Grances of that province, it seems that the properties of Edmontont. Veber, Stamper, Lave heen stoked with "substitutes" to an absence of the Common Contains to the Common Contains to the Common Contains to the Common Contains the Common Contains to the Common Contains the Common Comm

meaning plants and power plants of Onlario! Table 19 plants and Nava Scotia contain more coal through the foundations from under the Quaker State, It is admirably adapted alike for heating homes and for generating power. How comes it that Onlario as a standard of the Pennsylvania mines are closed down by a strike! Neither inferiority of quality nor limitation at to quantity can serve to explain the failure to reake up officially can serve to explain the failure to reake up officially can serve to explain the failure to the Pennsylvania mines are closed down by a strike! Neither inferiority of quality nor limitation at to quantity can serve to explain the failure to reake up officially can serve to explain the failure to the pennsylvania mines are closed down by a strike!
